

FALL CLEAN-UP

The leaves are finally falling, so here is a friendly reminder from our Department of Public Works team:

When you're raking your fall leaves this year, please be sure to keep them out of the streets and storm drains. Leaves, grass clippings, and other debris can clog the storm sewers, causing localized roadway flooding and unwanted nutrient/sediment loads to our area lakes and rivers.

Battle Creek residents should bag their leaves in biodegradable yard waste bags for weekly curbside pickup, mulch them into your lawn, or take them to the City's compost site at 715 W. River Rd.

Curbside pickup for fall will run through December 3rd.

Thank you for keeping our city clean!
